Generic Name: sumatriptan (oral/nasal) (Pronunciation: soo ma TRIP tan). What is sumatriptan (Imitrex, Imitrex Nasal)? What are the. Sumatriptan is a medication used for the treatment of migraine and cluster headaches. It is a synthetic drug belonging to the triptan class. Structurally, it is an analog of psilocybin, and features an N-methyl sulfonamidomethyl group at position C-5 on the indole ring. Sumatriptan is produced and marketed by various drug. Imitrex (generic: sumatriptan) injection is a prescription medication used to treat migraine headaches once they have started. Imitrex belongs to a group of drugs called serotonin receptor agonists or "triptans", which relieve pain by narrowing blood vessels around the brain. This medication comes as a tablet, a nasal spray. The seven available triptans (plus one combination pill) differ in their effectiveness and the side effects they cause. They are fairly expensive Sumatriptan is available as a less expensive generic, and studies have found that it is as effective as or better than most of the other triptans. Another sumatriptan option is a patch.
