Two or more reference listed drugs are generally selected only when there are at least two potential reference drug products which are not bioequivalent to each other. AB Products meeting necessary bioequivalence requirements. However, this medicine should not be used to relieve an asthma attack that has already started. Generic Singulair Availability Singulair is a brand name of montelukast, approved by the FDA in the following formulation s: Information is for End User's use only and may not be sold, redistributed or otherwise used for commercial purposes. If a study is submitted that demonstrates bioequivalence to a specific listed drug product, the generic product will be given the same three-character code as the reference listed drug it was compared against. Mayo Clinic does not endorse companies or products. Three-character codes are assigned only in situations when more than one reference listed drug of the same strength has been designated under the same heading. In certain instances, a number is added to the end of the AB code to make a three character code i. The patent assigns exclusive legal right to the inventor or patent holder, and may include entities such as the drug brand name, trademark, product dosage form, ingredient formulation, or manufacturing process A patent usually expires 20 years from the date of filing, but can be variable based on many factors, including development of new formulations of the original chemical, and patent infringement litigation. The easiest way to lookup drug information, identify pills, check interactions and set up your own personal medication records. Products meeting necessary bioequivalence requirements.
