Tell your doctor of any signs that your blood is not clotting as quickly. Home non categorizzato Tirocini Curriculari Tirocinio formativo presso gli uffici giudiziari. It can be harmful for people to take this medication if their doctor has not prescribed it. For this reason, it is important to monitor your blood pressure on a regular basis while taking this medication. If you have reduced kidney function or kidney disease, discuss with your doctor how this medication may affect your medical condition, how your medical condition may affect the dosing and effectiveness of this medication, and whether any special monitoring is needed. Many things can affect the dose of medication that a person needs, such as body weight, other medical conditions, and other medications. If you experience symptoms of reduced red blood cell count anemia such as shortness of breath, feeling unusually tired, or pale skin, contact your doctor as soon as possible. How does this medication work? Ask your pharmacist how to dispose of medications that are no longer needed or have expired. Contact your doctor if you experience these side effects and they are severe or bothersome. Store this medication at room temperature, away from direct light and moisture.
