Earlier this year, some of America's biggest employers including American Express, Macy's, and Coca-Cola created an organization called the Health Transformation Alliance with the aim of breaking with "existing marketplace practices that are costly, wasteful, and inefficient, all of which have resulted in employees paying higher premiums, copayments, and deductibles every year. I'm tired of them scamming Americans," Mitchell told Business Insider. Thomson Reuters Doughnut holes The real danger of taking Nexium, at least for millions of Medicare Part D patients, is that it can put them in something called a doughnut hole. Interestingly enough, these are also the fastest growing part of Rx drug plans. I take the over-the-counter Nexium 24HR, which is a 20 mg dose rather than the 40 mg prescription. While the Nexium or EpiPen story is not unique in healthcare today, PBMs are quick to refute claims that they are adding to the overall prices of expensive brand drugs with Rx rebates. In contrast, according to the FDA, the generic drug manufacturer must prove their drug is the same as, or bio equivalent to the brand name drug by measuring the amount of drug in the bloodstream and comparing that to the brand. They do this in part by creating lists of drugs that will or won't be paid for and then use their scale to negotiate lower costs. If that's it, then that's it. Nexium buyers, like pharmacies and wholesalers, have sued AstraZeneca, accusing the company of being involved in a "pay for delay" scheme. YouTube Meanwhile, in Washington Pharmacists aren't the only ones concerned about the lack of transparency. Compare prices and print coupons for Nexium (Esomeprazole) and other Heartburn, Gastric Ulcer, GERD, and Duodenal Ulcer drugs at CVS, Walgreens, and other pharmacies.
