Pfizer bought out Warner-Lambert in to block two other companies trying to acquire it and get control of Lipitor. When it was in development, the cholesterol-lowering medicine was viewed as such an also-ran it almost didn't make it into patient testing. But senior management was persuaded in to at least fund the initial round of testing on a couple dozen employee volunteers. So Warner-Lambert partnered with much-larger Pfizer Inc. Nicknamed "turbostatin," Lipitor became the top-selling statin barely three years after it was launched. Many of us need them Fay Schopen. British drugs survey Lipitor, the best-selling drug in the history of pharmaceuticals, is the blockbuster that almost wasn't. They had, but didn't see it. Jens Lindqvist, senior life sciences analyst at Singer, said: Consumers are often willing to pay higher prices at a drug store because many of them are conveniently located, open 24 hours a day and have drive-through windows, according to Gill. This isn't surprising because not only can pharma companies typically charge more for them, they are currently less susceptible to generic competition. A Target spokeswoman said it offers a number of ways for customers to save on drug prices, like rewards and discount programs. Both Lipitor and Plavix have since lost patent protection and sales have been eroded by generic copycat pills. Lipitor, Lexapro, Plavix, Actos and Singulair, all of which lost their patents in the last two years. But after nearly a decade as the top-selling drug, Lipitor is set to be toppled in after getting its first generic rivals four weeks ago. So Pfizer spent tens of millions on ads, including on the popular drama "ER," first urging patients to "Know Your Numbers" and then showing patients discuss how Lipitor helped them get their cholesterol numbers below guideline goals. So Warner-Lambert partnered with much-larger Pfizer, considered the industry's top marketer, first to help fund the expensive late-stage testing of the drug in people and then to promote Lipitor after it was launched.
