We all agree that patients don't like to be treated like children, talked down to or told to just "take two of these and call me later. Then I listened to her lungs with my stethoscope -- crystal clear. I expected her to walk out right there -- and complain to someone on the way out about her visit. January 19, Rahul K. She turned out to an alcoholic who was drinking bottles of the stuff herself. I should have explained to her, professionally and courteously, that prescription cough medicines have not been shown to be any more effective or safe than over-the-counter ones, and that there have been reports of young people taking promethazine-and-codeine cough syrup and dying from respiratory failure. She deserved more professionalism, empathy and reassurance from me, as well as a clear, calm explanation as to why there were better ways to handle her daughter's illness than with cough syrup. Press enter to open a popup for the integer value. Select Settings from the menu. Nobody's sleeping at home, and now I'm getting it too. I was stubborn, blunt and dismissive. I wasn't going to back down. She had a snooty tone, the kind that says, "I know exactly what's wrong with her," while she told me her kid's story. I suggested the mother might as well buy her kid a drink before bedtime instead. Neither Everyday Health nor its licensors endorse drugs, diagnose patients or recommend therapy.
