As clopidogrel inhibits the liver enzyme CYP2C9 in cellular models, it has been theorized that it might increase blood plasma levels of drugs that are metabolized by this enzyme, such as phenytoin and tolbutamide. Several recent landmark studies have proven the importance of 2C19 genotyping in treatment using clopidogrel. Views Read Edit View history. CYP2C19 is an important drug-metabolizing enzyme that catalyzes the biotransformation of many clinically useful drugs, including antidepressants, barbiturates, proton pump inhibitors, and antimalarial and antitumor drugs. In this trial the following rates of bleeding were observed. Austria-Codex in German 62nd ed. Archived PDF from the original on 6 February BMJ Clinical research ed. Focus Update on Prasugrel". Humira's patent protection expires in when it will face competition from copycat developers keen for a slice of booming revenues. Reduced effectiveness of Plavix clopidogrel in patients who are poor metabolizers of the drug". B No risk in non-human studies. Australian Medicines Handbook; Archived from the original on October 12, The drug: Plavix The companies: Sanofi/Bristol-Myers Squibb Estimated worldwide sales for \$ billion. Things are looking grim for Bristol-Myers Squibb (\$BMY) and Sanofi's (\$SNY) top-selling blood thinner Plavix. In the first quarter of this year, Plavix was the best-selling drug in America, jumping 3% to \$ Plavix.
