This medicine must be used together with a reduced-calorie diet and is to be used only by adults. Do not use this medicine without a doctor's advice if you are breast-feeding a baby. Keep the bottle tightly closed. If you also take cyclosporine, do not take it within 3 hours before or 3 hours after you take Xenical. Read all patient information, medication guides, and instruction sheets provided to you. Avoid eating high-fat meals or you could have unpleasant side effects on your stomach or intestines. This list is not complete. Take the missed dose as soon as you remember, but no more than 1 hour after eating a meal. Take the supplement at bedtime, or at least 2 hours before or after you take orlistat. Orlistat can make it harder for your body to absorb certain vitamins, and you may need to take a vitamin and mineral supplement while you are taking Xenical. Do not use alli if you have had an organ transplant, if you use cyclosporine, or if you are not overweight. If you skip a meal or you eat a meal that does not contain any fat, skip your dose for that meal. The dose may be taken during the meal or within 1 hour of completing the meal. Ask your doctor or pharmacist if you have any questions. If it has been more than an hour since your last meal, skip the missed dose and take the medicine at your next regularly scheduled time. The easiest way to lookup drug information, identify pills, check interactions and set up your own personal medication records. Lose more weight with Orlistat - order online from Superdrug.
